Does anyone else have problems throwing c4 ? I'd say 1 out of every 15 or so times I throw c4 I'll press fire like 5 times and it won't throw so I have to stop hitting fire then the next click works. This causes real issues when you're c4'ing a building and you've been spotted or you're trying to give someone a c4 present. All the other times it throws no prob on the 1st click of fire.theOne
