o i thought you were talking about how gdi can jump on the small ledge then over the wall. I use that in regular games but not clan. I really never heard of any clan complaining of a NOD (thats right -NOD- [sue me])2 person ref jump (-E**F- does not use this trick) but if a different clan trys it against us I really dont care. As for some using this in a regular game...if your whole team cant stop the 2 people doing the ref jump then you deserve to lose ur ref.
