The easiest way to kill a building is with distractions. EVA can only say "**** buliding is under attack" every so often. A good stragity in hourglass is to get a mrls/art asap and take it to the side. While the others get apc for a rush. Since people are more worried about incomming apcs going for the pplant/hand/tower/strip, they never notice the mrls/art shooting thier WF/barracks or Hand/strip. Plus EVA wont warn them either, because of the people hitting tht oblisk/tower first. Distract then attack is a very powerful stragity.
