I never accuse people of cheating whether I think it or not. I'm still very new to MP so I don't know all the ins and outs of it yet, but I definitely knew that this should not happen. And often, the seemingly invincible unit just stands there and takes my lead while he calmly aims at my poor little bobbin' head just sittin' there on my silly shoulders waiting to be blown clean off by some yawning, thoroughly unimpressed freak who is actually unkillable. To me this says that they know they're invincible. Have they found a way to purposefully exploit this so-called "glitch"? I just knew it!!
