Ever tried to drive a sedan or pick up truck into buildings?Its pretty freaky crusing down the halls in the hand of NOD in a sedan...excpet when you get stuck with an Ion beacon ticking away upstairs Once my brother turned the GDI barracks into a garrage, its just to bad he didn't take a snapshot.You know, that might be a good idea for GDI. After all, the barracks has got a lot of room filled with nothing.Hey they might get enough money to equip each ORCA with a parachute.
