I have another tactic. Only requires 1 Hotwire to destroy the Hand of Nod, Obelisk of Light or the Airstrip. (****...thinking of this makes me wanna go back to TD...AGAIN!) All you need to do is sneak under nods bridge to the next skyscraper. Then avoid the turrets fire. Then sneak around the corner under the ramp to the top of the skyscraper. Then make a mad dash for the Hand of Nod door or the left side ramp and jump through the windows. If you want to blow up the Obelisk, run from front entrance of the Hand of Nod to the Obelisk of Light. If you want to reach the Airstrip, run from the Obelisk of Light to the Airstrip front entrance. Will always work as long as minimal enemies spot you and there is a low ping/fps.
