Ya know, the funny thing is?When I first read Kitty's first post 2 months ago, I thought, just like everyone else, geez, she is not a team player. But since then.....I have become more of a solo player in a lotta ways, I rarely repair other people's tank anymore unless there is a vech limit and i am just a hotwire, my reason: I am better in tank then 90\% ppl out there. Team work is only great when you actually have ppl that works as a team and are not n00bs. I was on city with 4 other s tanks, the whole game we are trying to rush but keep failing, partly due to good GDI D, but partly cuz these guys are just green, keep firing in field, completely decloak themselves and cost us the rush and the game.You wanna talk about the ultimate lone wolf? theman158 almost never says anything (good or bad) the entire game and he almost always have the top spot by being a sniper (a good one too) or whatever trick he pulls, and on 1 game, he was 1500 points ahead of the next guy on the list (which was a Nod), we won the game by like 500 points, I don't think it is a overstatement that theman158 is, well, the man! He pretty much single handly won that game for us. But I do know guys like him are very few.Good points Kitty.
