----- You are probably all fine players, but if you exploit game bugs (You got two apcs past the ob by cheating-woohoo)I think you drop a few notches in the ol quality handbook. DO NOT: stand in the ob g-spot on Hourglass DO NOT: fire MRLs at HoN on Islands DO NOT: beac the ref in Field DO NOT: refill snipers in the ammo-zones DO NOT: CHEAT!!!! If you have to resort to these methods, I take it as an admission that I can always beat you fair and square. ----- what do u mean by do not refill snipers in the ammo-zones. cause im ussaly a sniper and just wana know,
