WTF are you on about.. the ST is the best tank in the game.. yes 1 on 1 it dont fair 2 well but thats not what its 4..Stealth tanks own field ,under and especially city. on under if you just get 3 stealth tanks to hide on the hill... the mammals role past to attack base down the hill AGT destroyed.. on city 4 stealths can take out any structure before GDI even notices.not to mention the missiles are bloody powerful. they are only really vunrable to infintry and orcas in packs.
