Press F8 and type extras fnkqrrm It will say in purple letters in the corner, extras ENABLED. Then, when you go into the PT hold alt and click on Characters or Vehicles. The names are screwed up and they show pictures of officers and buggies (nod) or Hummers (GDI) The GDI Characters are Dr. Petrova, Locke, Logan, and Lieutenant Maus. Their Vehicles are a Sedan and a Pickup-Truck. The Nod Characters are Mutated Dr. Petrova, Kane (yes, Kane), a Chef, an initiate, an Acolite, and a Templar. The Mutants are healed by Tiberium. Their Vehicle is the chameleon. This cheat will NOT work in ladder games! Its handy to be Nod and be in the tiberium field as a Templar with a Flettin Gun! WOW!!!!THATS SO AMAZING!!!! WELL DUH!!!!YOU JUST FIGURED THAT OUT!!!!
