First you should be able to parachute out of the chopper-makes assaults MUCH easier and cooler! Also you should parachute when you aircraft gets blown up BUT you open it instead of it being automatic, so you can wait till your 20 feet off the ground open it,then cut it(like the S.E.A.L's H.A.L.O drop) because you still survive the fall and can't be hit while 'chutting down. Can you try it aircraftkiller?
