I just hate that you can't disarm the sonuva***** when it's deployed. I've had games where this happened over and over again... and well, it was some bunk ass **** However, now I'm choked at all you dumb SOBs for spreading the word on how it's done, so more dumbass mutha****a's are gonna be pulling this bull**** This crap is quite possibly the most infuriating aspect of this game, made all the worse by the fact that if FF is off, I can't stop the punk ***** from gettin' his jollies off(if the host won't b00t em)
