quote:Originally posted by D. Mitchell: Sometimes the C4 is set so close to the MCT that it becomes part of it. Just keep moving around it, sooner or later you will see the c4 icon thing and then can disable it. I think it is because of lag...don't know though. I have had the undisarmable C4 thing happen to me several times. But I don't think any person who planted it was ever cheating. Crouching can help.
