how the f-uck am I a n00b? and jing STFU you just agree with whatever Ack says. I'm posted that because in numerous games i've played people contantly hit various voice commands not knowing which is which. And ack if you just flame others then get a life you f-ucking loser. I don't give a s-hit about what you did "for the RA2 community" or what ever, oh and one more thing- look in your manual it says NOD
