humvees - for infantry,1st line3 medtanks - Main attackers,2nd line2 mammoths - Main Attackers,
3rd line5 orcas - Support, claw formation in airdont ya just wish you can adjust the speed of a
tank , so you make it go as slow as a mammoth, so the mammoth can keep up?You cant make it
go faster than its maximum speed, but you can make it go slower. problem with that force is that
