Alright I'm getting sick and tired of hearing you people ***** about the mammy. And beggin Westwood to make it better aint helping *****it. YOU know why the mammoth tank "sucks" its cause *****s like u say it does and don't understand how to use it. If the mammoth tank sucks so much ass then why do we see people continually use it? Cause it can dish out damage and take damage, most players when they see 1 turn the corner and run away. IT TAKES 4 SHOTS FROM THE OBALISK OF LIGHT TO KILL ONE OF THESE!!! YOU understand that??? That means while the obalisk is defending the base the other attacking units get in unscaved. What happens to the base they are overrun by GDI within moments. Whould you say the mammoth sucked if you were Nod? I wouldn't. You can ramble off many reasons to why it sucks, but I havn't seen many of these reason evident when I play. BTW I'm not a n00b. Got FPS experiance since the first Quake was big and RTS experiance since Tiberian Dawn was released so don't start ***** about me bein a n00b. I know what I'm talkin about.
