i played in one gaem on under. 24 ppl. I was gdi and of course 5 mintuests into the game they flame rush with like 7 flmae tanks. somehow we stop it. But then he head back out into the field and another 7 are coming from nods base. this happened like 5 times in 10 minutes. each with 6 or 7 flame tanks. and you started with 0 bucks so it seemed impossible to me that that could happen becuse they never succed or destoryed any buildings.to me this seemed like some hack for infinite money or flames are free..... but somehow in the end they only one buy points and only by about 500.
