I just played to stupidest game ever. There were 40/40 people in the game. I bought a mammoth, headed to nod. And it was funny.. all the nods were attacking my base. So with that 1 mammoth I took out all but 1 of nods buildings. It was sad as hell. I had double the person in 2nd places score by the end. Then.. with 1 building left.. we lost.. Why? Because 19 of my teammates ALL had the lowest score, all the nods were all under me, only 1 nod had a score lower than one of my teammates. And I only got 0 on the ladder when I had twice the person score who was in 2nd.
