I like the pre-patch lag. IT leg you do flips and drive a buggy on two wheels and awesome ****. But they fixed that, but they didn't fix the more serious ones.. I like the driving on two wheels buggy **** it WW!!! He probly was killed form it falling from cargo plane or lag, or the secret psychic char that shots and invisible beam that lets him pick up vehicles and move them arond. Whoops, I've said too much.
