Aircrap needs to understand that most of the people here hate him. All he reads are the few posts of people that stick up for him, although I don't understand why they do stick up for him at all. If Aircrap really thought about it, he would have no alternative but to realize that he's been a complete jerk and that people dislike his attitude, his grammar-checking everyone, or his lame flames that have no power behind them (he's like a flame-thrower compared to a flame-tank). Now I understand that he was once a very helpful guy. That's what people say anyway. He's got the low number of 53 for his entrance to this forum, so you know he was looking forward to this game big time. He's got a lot of good points and a lot of useful information under his belt. He'd probably even be a kewl friend to meet and know. But the fact of the matter here is that he's a conceited, know-it-all, grammar-checking, flaming anyone at all that doesn't agree with his exact point-of-view. This makes him a #1, state-of-the-art, AircraftCarrier-sized bunghole. He's the kind of gamer you don't want to meet because he's kewl; you want to meet him to kick the smack back down his throat and make him beg for mercy while he's kneeling and crying like the punka\$\$ he really is. AirCrap, you need to realize that most of the community doesn't like you. They may have really enjoyed your posts in the past, but count the posts man, use your fingers and toes if you have to but the fact of the matter, you complete moron, is that people find you to be an A\$\$hole!
