True story I kid you not. I was on the mesa map as Nod, crusing in my buggy, and I see a med tank being driven by a nOOB. Since I like to do suicide, I attack it and I keep circling around it. And saddly, I blew it up. It took about 10 minutes but I did it. That was a sad day in GDI history, but was funny to watch. lol [April 25, 2002: Message edited by: jindi007]
