Nod===Ask 6 of your teammate and tell them to buy flame tanks, when all of the flame tanks are ready, tell 2 of them to rush by the left side of the map, tell the other 2 to go to the middle and tell the other one to go with you on the right. When they got the message, (maybe do a 3,2,1,go countdown) and BOOM!!! GDI will be like burned chicken .(This tactic require alot of teamwork and it works 95\%)GDI===Get an APC and get 2 engi and 1 sniper to get into the APC. Ask another teammate to buy a HumVee. Ask the HumVee to go in front of you, and move out(remember to tell him to go to the side of the map and when his HumVee gets destroy tell him to get into your APC, and also tell him that he will be a 'defender' for your APC rush). follow the HumVee...and when both of you are near the enemy base the obelisk will blast off the HumVee first followed by you. Then run to the obelisk's MCT and plant C4, the sniper will keep people from defusing the C4...BOOM there goes the obelisk and buy medium tank to finish them off after you die. Note, this tactic also require alot of teamwork and it need you to type fast and the HumVee was just to prevent your APC to get destroyed. Works 95\%.Please rate me if you found this tactics work.Feel free to ask question about those tactic. [April 21, 2002: Message edited by: psychobom] [April 21, 2002: Message edited by: psychobom]
