is there a proxie mine counter????if not it should be added, it could be on the PT's and just be a small thing in bottom left or right saying mines:0-30 or what ever. i hate counting them or waiting till one disappersares, wont add much lag eitherand on a more complex note you could add a pop-up screen if you hold down M or somethign that shows a the map and then puts numbers that corisponed to your mines 1=first mine put down.Of course they would only show frienly minesideas??? sugggestions????
