Yep not a post under here in a week, but then again why should I?... most of the people who responded are too stupid to comment on, saying how I'm not a team player..... well so what if I'm not..... the post is "ever wonder why I can get such a high score in a game" not "ever wonder why I win so often"..... and you dorks, mainly azwhooping aqualite ack and sup, just don't realize I'm not going to shut up or be quite....cuz when it comes down to it I really don't care what you half brained Newbs think....and azwhooping I'd like to know just what your prob is?? is it cuz I don't play as a team, or is it cuz I think you tactics are screwy and need work?? or is it cuz I yell at the newbs on the team I'm on....why don't you just face it and own up to the fact I know what I'm doing and if everyone would just get their head out of their butt maybe the game would be interesting.... but its not were still stuck in the era of morons like you thinking a fast rush on a large map with large teams will win..... u say you want goddang team work fine..... well I want strat. you newbs start learning how to play and I'll start being a team member... but until then you can go take your complaints and shove them where the sun don't shine , oh and to anyone who is going to say "oh yeah then why don't you just say what good ideas you have C4b\*tch" I will but I doubt you'll care since you like making fun of me so much.Oh and to you personally azwhoopin I didn't bother to respond to your pathetic little posts cuz I couldn't be bothered to respond to such lame insignificant comments not because I've finally shut up. Oh I've always wanted to know where you work, give me your bosses email I'm sure he'd like to know how you spend your time at the office.And to you ack(aircraftkiller, the Newb beta tester with lame little pics.) you might be good at "flaming", though I'm not sure doesn't take much brains or guts to make fun of someone behind their back, but when it comes down to it I've heard youre just as bad at making fun of and yelling at newbs as I am. But one difference remains: 'i need repairs''i need repairs''i need repairs''i need repairs''i need repairs'I might yell at them and make fun of them but atleast I don't turn to them and expect them to help me. And if they do repair me I always say ty(thank you), if there is ample time. And maybe if you spent more time working on your aim and less time typing remarks maybe you would be good like the rest of the beta testers are.[ May 01, 2002: Message edited by: C4kitty ]
