Wow C4, your a real greedy fool... I can be found Blowing up buildings, defending base, Sniping, and repairing tanks with techs when there is a need, sometimes I jump out of my own tank to fix somebody else's. So many times I spend most of the game around the base mining buildings, repairing buildings and stopping flame rushes with PICs or Mobius. You also notice that U said U have a high win percentage.. Most of the people in the top 50 have better win \% and without being a greedy *** like you. I don't know how many people I have thanked for repairing me in a big battle and I usually give them my tank eventually for it. If it wasn't for the engys fixing my tank the game would be lost. Those engys that fix our tanks are the key to winning most games. Somegames I find myself defending the base or repairing tanks more than attacking.. So many times I seen "top ranked players" witness an engy rush into our powerplant and they totally ignored it, he just jumped into his apc and took off, I jumped out of my tank, ran in to attempt to stop it and did saving the team the loss of a power plant all while somebody steals my tank while I am saving PP and you are halfway to the enemy's base for another 33\% chance at a high scoring building kill! BTW- U say your win \% is so good right? Yours is 60\% and mine is 59\% some others ranked between us have as high at 71\% and plenty higher than 60\%. Lets not make up stories ok? Your a greedy point hore of a player. You already state you will not fix anybody and that you only play for pts. Your are pathetic and then you lie trying to pretend you have the best win \%. Its a team effort.
