Kitty, you should know better True, both sides can PT beacon...but it's obviously a bug and it is obviously wrong.and YES, I do tell my team not to do it, and I never have done it. I would muchr ather sneak in as stealth and headshot the engies, it's more fun anyways.And losing is no excuse to cheat...As for MRLSing on the hand?It's not cheating, but it is cheap. It may have even be intended, and I'd like to see how u can shoot the gdi factory I never do it, but sometimes it's tempting...that's more of a gray subject
