This isn't a free mod where they work on it in their spare time. It's what they do for a living.No, sorry, it is not their job to make patches and stuff for a whiny community... They are getting paid for doing what they are told to do by their bosses. In a way, yes this is their job, but the company itself has NO obligation to create patches or make more stuff for the game. They could be spending this time to make other games which would make WW more \$, but they are not so stop whining!
