I find it extremely annoying when I have to play rambo for my team to win. I scream and yell for team work on rushes or defense only to see my (most often inept) teammates doing something stupid like sitting in the middle of a field looking for other tanks to kill. ALWAYS BE ATTACKING!!!! The best defense really is a good offense. If you have most of the other team tied up in their base trying not to lose you can generally have your way with them. If you are going to attack something, attack something useful. A stand off rocket attack on a building is nice if you can get the kill but it almost never happens.
