quote: 3.for all intensive purposes it appears mobile artillery is better than mrls. The ma has a fully rotatable turret, deals damage faster, easier to aim (at least in my opinion) an i believe the shell is faster too. Though i guess the multiple rockets could be useful at certain times, instead of just one shot i disagree, becuae teh rockets have to come out strait you can get tehnm to curve adn fire into teh tunnels or hit the obelisk withour worrying about being shot, you can taek out teh ob on just about every level useing that stratagyAlthough it does becoming annyoin when trying to attacksomethign from behind, but othere than that i must say the MRLs are better
