quote:lol, yeah I have to agree a nice piece of hair pie is good... can't really eat the pie and play at the same time though, still working on that skill. And when there's no hair pie around, a nice slice of apple pie with cinnamon, caramel, & vanilla ice cream hits the spot well if your partner likes to play, she(hopefully it's a she) could drive while you eat your pie. just a thought. lol...
