Has anyone actually succeeded in landing on and riding a vehicle on the top?[/QB][/QUOTE]Havent been able to ride on it but I have landed on top of the Harvester in Under. It took a few tries {I'd read a hint in the forums} but I only managed it once and it was a kind of dumb way to plant C4. When it moved i slid right off the side of it. I dont think I was actually on it, rather over it with nowhere to drop till it left.
