I find stealing the other guys cars funny i was an engineer once with my team of soldiers.....it was all going well when we were outside our tunnel.....then we started to move towards the NOD tunnels when we got ambushed. i hid behind a rock.....the GDI soldiers were winning at first then some more troops came forward with a buggy (it was at the start of UNDER) and killed all of the GDI soldiers.....i was the only one alive and the buggy was damaged.....an engineer had happened to be inside....and he got out to repair it so i made my move for the buggy. got in flattened the \*\*\*\*\* and killed all the NOD soldiers.....lol-----EAT SOUP!
