As soon as the cut scene ended i leaped to the very bottom and hid under the stairs...I pulled out my PIC and waited. Petrova was one level up and i just poked my head around and gave her 3 ion blasts to the head and i was all good after that. I thought rescuing sydney after that was a little to shorrt and easy though[ March 29, 2002: Message edited by: D\_MAN ][ March 29, 2002: Message edited by: D\_MAN ]
