I know you can change the starting credits and time by going to a file in the data folder called cncvconfig\_skirmish.ini or something like that. As for changing the actual map, might be possible. I'm pretty sure it loads a map called skirmish00, so if you changed one of the map names to this it might work (i stress might). Oh and you can use either side in practice zukkov, there is an option to switch teams.
