before falling down.I have killed him 2 times (playing the campaign the second time now), both times I succeeded by first using the Ion cannon then the redhand autolaser (one lasergun clip got him down after 4-5 Ion cannon rounds).Good luck, just make sure you turn around and give him a rocket, Ion cannon round or anything else very powerful, and he will back up and give you a chance to finish him off. Do not waste rifle ammo, only the laser, Ion cannon or rocket launcher,

ammo until you find more.Hidden
