---

I never nuke/ion building from inside. The only time I ever enter an enemy building is if I'm a tech/hotwire, going in to clear out some engys so my team can blow the structure, or on the rare occasion that I feel like putting my beacon on the pedastal. I also only do this if there are no mines there. It is much easier to defend a beacon on the outside than in. Plus you can distract people easier.
