Wanna hear something even bad? I joined a game last week and there was 2 GDI versus 3 NOD. (I was GDI). While my partner was out running around in his Mammoth... I was using Hotwire in an APC. When I arrived to the enemy base... I saw 3 n00bs attempting to repair the base. When I approached them, they panicked and started shooting at me! Well, the sad thing is... they were all shooting at me with their healing guns!!!! ROTFLMAO!!! I just stood there shooting them one by one with my APC while they frantically tried to kill me with their healing guns! LOL!!! Sheesh... talk about really stupid n00bs! Heh...
