I have played on them both and haven't noticed any real big difference. I did get the dreaded BSOD while playing on WOL and haven't while playing on GS. A fluke?? possibly hasn't happened since that one time though. Well it happened, but this time it just kicked me out to desktop, and FUBAR'd my settings. Gonna try GS (shudder) and see if it happens there. [March 12, 2002: Message edited by: Major Deadly]
