first off, if you're buying free vehicles for the team, please broadcast it. i don't know how many times i'm running around the base and there's an empty vehicle just sitting there. it's a real waste of time for those of us that don't steal to have to wait and see if someone's coming to get it. with regards to actual theft of your vehicle, and you know it was grand theft, then you can broadcast to the enemy what vehicle he's in and ask them to eliminate the b\*stard. i'm sure the guys on the other side will feel the same as you about thieves and look for him....
