Heh, this one time I bought a medium tank in Under. The thing comes fresh out of the factory and this guy walks up to it, and tries to get in. Of course, the idiot doesn't seem to realize that the thing is freshly bought and won't let him in...meaning it belongs to someone else. So, I enter the medium tank, being the rightful owner and all, and the guy immediately steals my gunner seat. I tell him to "get out of the vehicle," in which he responds "WTF?!?!?!1111 THS IS MY TNK!!!111 GET OUT TANK STEALER!!!111" Of course, I start driving, flashing my usual n00b binds messages that explain just how vehicles work. The guy still thinks it's a tank he bought. Long story short, I get ****ed off that the n00b is not shooting the cannon and just drive us both straight into the obelisk...when the tank blew up, he was immediately fried, while my score jumped about 300 points because of a quick bombing thank's to the guy's "distraction"...
