I love the sniper, for me, the most entertaining unit in the game. Can you give me some tips like how often do you change locations, how far in do you zoom in on your target, etc. Do you try to snipe everyone or just higher units to not give away your position? And anything else you can think of. Thanks! Also, what sniper do you like best, the \$500 one or the \$1000 one? I am sure the \$500 one is good for some of you as a head shot kills instantly.
