I had a same experience...When I told my team to rush the AGT with 4 flame tanks, nobody followed me into the GDI base because they saw a single mammoth coming out of Weapons factory. Now, I don't rush with vehicles unless the people I know who's playing very well like "darkviruz" rushes with me. When Im not on offense,I just keep sniping the poor engineers running like headless chickens behind tanks until AGT is destroyed.
