quote:Originally posted by Shade:other than working against GDI vehicles, flame rushes, and base cleanup, they're pretty useless. am i right? i think it might just be im not very good with the stealth tank, and the light tank gets owned by a medium, but still, is it as inbalanced as i think?1.) Nod relies more on infantry (Use Flamethrower against tanks, they are for free so use them plenty!)2.) Artillery has high range! Use it! You can defend your base from the airstrip. DONT MOVE IN FRONT OF A MAMMOTH WITH AN ARTILLERY!!!! I know most of the people do this and its stupid. You give them only some cheap score points.3.) Look at the "Your tactics at work" thread for the stealth tank.
