Just a little reminder in case some of u guys didn't knew it already... The best way to win with either teams is T E A M W O R K ! ! ! ! With a little talking and money, you can do anything.... I was on a server tonight where teamwork was not bat, until a couple of players decided to tag along for a quick rush... After that moment, the game was seteled... It took for peopole and some patience but we destroyed a complete base in less than five minutes... And it's quite satisfying!!! hehehe... there's nothing like earing "GDI AGT destroyed" Everybody can do it! just look at the messages going in the top corner of your screen... There is always someone ready for some team attack... unfortunatly, teammates rarely respond... but the game is quite better when we all work together!!!
