Last night I was in a great game (when it actually worked... 1.006 is horrible!). Actually took out 6 mammoths and 3 mediums myself. How? I don't remember his name.. Ravenclaw I think? Has a rail gun, which chews about 1 block from a mammoth per shot. Granted it's not huge damage, but it's one shot, and you can get up and move quick. Plus you're not in a vehicle, so it's harder to spot you. Great fun now that I've played a bit more. I just hope they get the connectivity issues figured out (bandwidth detection sucks!)
