the AGT is quite powerfull, true, but is supposed to have a shorter range than the obelisk. Makes no difference on this map, but should be different in other. and I was recently able to destroy an AGT in a direct frontal tank assault this morning. One mlrs, one medium tanks (the two of them stolen by teammates) a light tank and my stealth tank, along with 2 ingies I think. Ok, we were only two alive tanks alive at the end, but that was quite satisfying!!!!
