easiest way top block a flame tank rush is to block teh flamers physically.This means you can buy one or two med tanks and use a physical barrier between the flame tanks and the guard tower. the guard tower will destroy them and so will the med tanks. The flame tanks cant get close enough ot teh guard tower to not get hit by the guard tower because the med tanks are blocking them from doing so.this is an extremely useful tactic. I've stopped 4 flame tanks with one apc
