C&C DM CambodiaCreator: AircraftkillerTheatre: JungleDescription: C&C DM Cambodia is a small Vietnam-style deathmatch, with a Tank spawn to make for a fast-paced bloodbath. Crates provide you money, and Choppers are your PTs.Looks like someone is stealing again
And where did you get this information, from www.cncnz.com?Sonic made a mistake and believed that I created the map. How could I take credit for the map when I had nothing to do with it, you little lying thief?How about the fact that his mistake is lasting almost a week? Most people believe you made it by now....
