Thanks to Dante for informing me about it; the flags I released previously weren't working properly. Here's the ones that do:<http://www.cnczone.net/maps/ren/ctf/flags21.zip> And here's pics of what they look like in vehicles and on infantry (Thanks to Neo227 and CNCZone for the webspace ) Also, if you're not a modder, you can stick these in your /Data/ directory for use in any other CTF maps (As long as the map's flags and the replacements have the same filenames). Note: I did animate these at first, but Renegade wasn't reading the animation. It was frozen in mid-undulation. [ January 13, 2003, 11:54: Message edited by: Taximes ]
