Hi all, these forums seem to be the holy grail of all mod troubles so i was wondering if you could answer these questions for me (i'm stuck ) i'm trying to customise the purchase settings in my map i see it done all the time! with other maps ACK's ones, omaha beach etc, loads! Also customising the weapon(s) and health amount that you start with (initially and when purchasing a new character) I have been modifying the 'character classes (gdi)' options in the global settings --> purchase settings bit of the commando editor and other bits in there but nothing seems to work! any ideas??much appreciatedHalo38
